RE: Need for Lymphedema Providers

I am writing as an Aetna member / a Medical Provider on behalf of a therapist named Rebecca Summers (occupational therapist, certified lymphedema therapist) who has attempted to attain in-network status. She informed me that she was denied enrollment as a provider because the network was full. I am requesting you reconsider her enrollment. I can attest from personal experience that finding a therapist who is certified & trained in lymphedema management is very difficult.

Sincerely,
